Hotel Entry And Porte Cochere

Hotel Pool Zero Rim Into Lake Caliraya

Golf Clubhouse Rear Elevation

Client:

Sta. Lucia Realty & Development, Exequiel Robles

Location:

Laguna, Philippines

This exclusive lakefront community features Gary Player and Andy Dye golf courses. The clean white "Imperial Plantation" architectural style provides a foil for the natural sloping site character. Gladding Jackson developed the plantation theme by siting the buildings to take advantage of the lake breezes and long range views. Gladding Jackson further developed the plantation concept by planting a coconut palm grid across the developed areas to integrate the man-made with the natural areas.

Natural boulders are used extensively in walls and paving to further enhance and contrast the white formal buildings. The steep slopes provide an opportunity to use water as a sequential guide through the multi-level resort products, culminating in the 5 star hotel pool's zero rim spillway into Lake Caliraya.
